

Contingency Plan: Reduced Workforce Scenarios

Scenarios

- ▶ In the event of an extreme resource or workforce shortage, we have three service scenarios defined that provide limited service to our high ridership routes. Note, that all express routes would be suspended.
- ▶ Tier 1a: 13 core routes - requires 38 buses, and 76 operators
 - Frequencies: 30-45 minutes
- ▶ Tier 1b: 13 core routes - requires 20 buses, and 43 operators
 - Frequencies: 60 minutes
- ▶ Tier 2: 21 routes - requires 54 buses and 114 operators
 - Frequencies: 30-45 minutes
- ▶ Tier 3: Sunday-service level - 39 routes, and requires 86 buses and 148 operators
 - Frequencies: 30-60 minutes

NOTE: CATS will not have forewarning from RATP Dev of the number of bus operators that report to work until the time of their shifts. CATS expects this will significantly impact bus service, and CATS will communicate real-time service changes based on staffing levels.

Paratransit and rail operators will not be affected by a SMART Union strike, because they are city employees.

Tier 1a & 1b

Tier I Routes

5 – Sprinter

6 – Kings Drive

7 – Beatties Ford Rd

9 – Central Ave

10 – West Blvd

11 – North Tryon
